October 2nd 1862

Prize Medal awarded
for
Geological Collections.

Prof. J. S. Marsh

Bryce M. Wright,

Mineralogist, Geologist, and Conchologist.

Sir,

The Rev. & R. Beadle

When in England kindly gave me
your address as a Geologist & requested
me to inform you of an Ichthyosaurus
Platyodon on the Stone and other
fine Fossils which I have on hand
at present. The Ichthyosaurus is a
very fine specimen being above
five feet long; in case over 6 ft -
long ready for exhibition. It is

19463

Not the common species "communis" but platyodon which is much rarer. It is also from a rare locality viz. Saunteron near Yeovil Somersetshire. It is one of the best specimens I have had for years. The price would be 15£. I have just been successful in procuring a fine selection of Permian fish & have indeed a very good collection from nearly all the formations. Trilobites and Crinoids from the Silurian I have a large selection of

19464

likewise a large series of Ammonoites from Lias and other formations. If desirable I would have great pleasure in forwarding you a Box of any of the above for selection or of any of the fossils I might possess, at any time. I remain, Sir
Yours most obediently,
Bryce In Wright
I have also a very excellent

19465

Series of the "Woodoverianus
macrodactylus" from the lime-
stone of Yorkshire & of the
Encrinurus Liliiformis with
stem in the Stone from the
Muschel Kalk, Saxony.

19466

CLASS XXIX.
INTERNATIONAL EXHIBITION.
1862.

90, GREAT RUSSELL STREET, BLOOMSBURY

London, W.C.

January 22nd 1862.

Prize Medal awarded
for
Geological Collections.

Add in Van name, Esq.,

Bryce M. Wright,

Mineralogist, Geologist, and Conchologist.

Dear Sir,

I have the honour of acknow-
- ledging the receipt of your letter of the 15th
- Dec^r and must apologize for not answer-
- ing before I have been however out of
- town and have only just returned. Re-
- specting the Ichthyosaurus I think that
- Prof^r Marsh would find it as good as
- the sketch formerly sent. There is one
- point I must mention as it is of
- course of importance viz. that since
- last writing I have discovered the
- species

19467

to be *Ichthyosaurus intermedius* not-
platyodon. The mistake occurred in
 consequence of a Geologist from whom
 I purchased it having informed
 me of it being "Platyodon" and taking
 his word I did not examine it
 thoroughly but upon looking at it
 a few days afterwards I was sure
 there was some mistake so got Prof.
 Owens assistant to view it with me
 the result being that it is "intermedius".
 Should however Prof. Marsh still
 desire it I will send it forward
 upon hearing from you I will
 retain it any how until you

19468

Answer arrives.

At present I have not the *Desidera-*
-ta Prof. Marsh desires but I am
 in negotiations for purchasing a
 very fine collection and will send
 out with pleasure any that I might
 think would suit him.

I have a very fine collection of
 good Silurian *Prinoids* & *Trilobites*
 of which I could send a very fine
 collection. I remain, Sir,

Yours most obediently,

Bryce M. Wright

for
Geological Collections.

Prof^r O. C. Marsh,
Bryce M. Wright,

Mineralogist, Geologist, and Conchologist.

Dear Sir,

I have the Honour to
acknowledge the receipt of your
favoured of the 2nd March enclosing
Draft to amount of 15£ in pay-
ment of the Ichthyosaurus for
which I beg to return you many
thanks. I trust that the speci-
men ere this has arrived safely
to hand and has given you
satisfaction. I will let you im-
mediately procure a Pleisiosaurus

19471

I think that I can procure you
some of the Vertebrates you de-
- sire especially from the Green-
- Sand and will commence to
- make you a collection at
- once. I will forward in a
- day or two the following ske-
- letons I will endeavour to pro-
- cure you the Rhinoceros also
- and others that you might
- desire.

Hyax capensis.

Muritor niloticus

Sparbill

Crow (*Grus australis*)

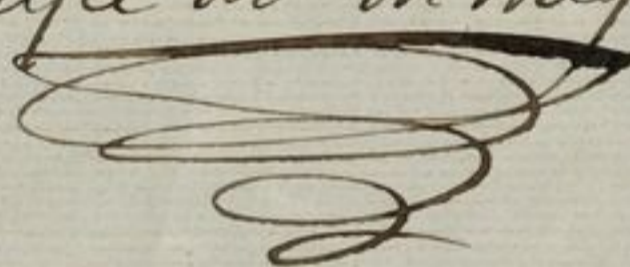

& Erpe.

19472

I must apologise for not having
answered before ~~but~~ I was in
the Continent when your letter
arrived.

I have the Honour Dear
Sir, to remain,

~~Yours most obediently,~~

Yours in respect

John

CLASS XXIX.
INTERNATIONAL EXHIBITION.
1862.

90, GREAT RUSSELL STREET, BLOOMSBURY.
London, W.C.

May 18th 1872.

Prize Medal awarded
for
Geological Collections.

Prof. O. C. Marsh.

Bryce M. Wright,

Mineralogist, Geologist, and Conchologist.

Sir,

I have the Honour of in-
forming you that I have this day
forwarded as per enclosed List an
Assortment of Fossils. Amongst
them you will find a good Collec-
tion of Squanodon Remains from
the Greensand as well as many
very good Fish, Teeth etc from
various formations. At present
I am sorry I have not any of
the Pterodactyle Remains, but
will endeavour to procure a
good series for you. I will

19474

also look after getting a good
Plesiosaurus and will write
to you immediately I have one
likely to suit. I send in the
Box a very perfect specimen
of the Ichthyosaurus Communis
-ris which I thought you
might like to possess. At
the present I have a very
fine series of Crinoids and
Trilobites from the Wenlock
Limestone of Dudley and a
nearly complete collection of
the Pear Enormites (Opio

19475

Crinus Parkinsoni) showing the
various plates, Spines etc in
every form. This series is in-
valuable for teaching purposes
and has been made ^{with} ~~at~~ a
great deal of trouble & care.
Hoping to hear of the safe
arrival of the Box and that
the contents will give you
great satisfaction Have the
honour of Remaining Sir,
Yours most obediently,
Bryce Wright Junior

Exposition Universelle,
Paris, 1867.

Sir,

421

At last - I have
succeeded in procuring
some Pterodactyle remains
from the Green-sand
of Cambridge; also a
portion of a large
Plesiosaurus from the Seas
of Lyme Regis, which
I have forwarded to you

19483

to-day together with a
 selection of other Fossils -
 of which the enclosed are
 lists. You will find 9
 species of *Sturomia* from
 New Zealand; also remains
 of *Troch* from Mauritius.
 There is also a very good
 series of *Palaotherium*,
Ctenotherium, *Palaomys*
 &c. from the Miocene of
 Messenau, Wurtemberg; &
 Longy, Dep. Alpes.
 The whole have been

19484

sent in two cases, & I
 have ordered them to be
 insured for full value.

I am, Sir
 Yrs Obediently
 Bryce M. Smith
 pro G.H.

Trusting to hear they will
 arrive safely & give
 satisfaction. Yrs. G.H.

INTERNATIONAL EXHIBITION.
1862.

90, GREAT RUSSELL STREET, BLOOMSBURY,

London, W.C.

February 26th 1873.

Prize Medal awarded
for
Geological Collections.

Exposition Universelle,
Paris, 1867.

Prof. Q. C. Marsh,

Bryce M. Wright,

Mineralogist, Geologist and Conchologist.

Dear Sir

I herein beg to

enclose a sketch of a very
fine Pleisiosaurus the di-
mensions of which are as fol-

lows 16 feet length, 8 feet
across fore Paddles & 4 1/2
feet across the hind ones.

The price of this which I
need scarcely say is a very
fine one is 250 £. It
belongs as in fact do all
the specimens here mentioned

19495

to a private gentleman who is disposing of his collection. There is a small one also which I could procure for 150£ but nothing like the better specimen. He also possesses an extra ordinary fine Ichthyosaurus 25 feet long. Seven feet across the Fore Paddle & 6 feet across the Hind ones which I could procure for £250.

I have also just received a small Ichthyosaurus about 6 feet in length with jaw showing teeth, one anterior paddle very perfect, with ribs, tail etc. the price is 15£.

19496

I am busy collecting for you & trust to forward a good Box in about a month. Meanwhile I should be much obliged if you would kindly favour me with an answer per return as to the Pleisiosaurus & Ichthyosaurus. The former (Pleisiosaurus) are always very rare & in fact are only to be met with very seldom when the old collections are broken up. Hoping to be favoured with an answer per first steamer. I remain, Dear Sir,

Yours most obediently
 Bryce in trust for
 for you

19498

Prize Medal awarded
for
Geological Collections.

Exposition Universelle,
Paris, 1867.

Prof. O. C. Marsh,
Bryce M. Wright,

Mineralogist, Geologist and Conchologist.

Dear Sir,

I beg to inform

You of having forwarded today
per Staveland & Co's American
European Express Three Cases
containing Fossils of which
the enclosed is List. You will
find amongst them a very
good specimen of Pterodactyle
Remains which are extreme-
ly rare & very seldom to be
met with from the Lias of
Dorsetshire. I have also been

19499

fortunate enough to procure some
Teeth of the Pliosaurus grandis
from the Thimnbridge Clay of
Ely Cambridge which are
also forwarded. I procured
these specimens out of an old
Collection & this is the first time
I ever had them so fine in
my possession.

There is also a good series of
Fossils from the Lardon Clay
Isle of Sheppy very few ~~Fossils~~
specimens of these of which
have been described.

I have sent some specimens
also from the Shaues Valley
Deposits which you will
find very interesting. The

19500

Plesiosaurian Remains, Fish etc
from other strata you will
find all good.

I will do my utmost to procure
Pterodactyle & other Remains
from the Upper Greensand of
Cambridge. They are always
however very scarce and are
with great difficulty procured.
I have not the slightest doubt
however that I shall eventually
get you a good series.

A week or two ago I had
the pleasure of writing you
about some Plesiosaurs which
are for sale I hope to have the
favour of your answer.

You may depend upon me

1950

procuring everything that I possibly can that you may desire.

Yours truly

Yours most obediently,

Bryce M Wright ^{Jwr}
_{for B.W.}

Exposition Universelle,
Paris, 1867.

Sir,

I have sent
off to your address to-day
2 Cases containing Fossils
as per enclosed lists. You
will find a very fine head
& various bones of the "Ursus
spelaeus" lately found in
the Pyrenees; also a sp. of
Vertebra of Mososaurus from
Maastricht which is a

rare fossil to procure.

There is also a good series
of *Halitherium Schineri*,
from Honheim; Bird
remains from Langy,
& other good specimens from
the Cray & Lias of England.

I hope to hear they arrive
safely & prove satisfactory.

I am, Sir

Yours Obediently
Bryce M. Wright
pro E. H. H.

CLASS XXIX.
INTERNATIONAL EXHIBITION.
1862.

90, GREAT RUSSELL STREET, BLOOMSBURY,

London, w.c. June 2nd 1873.

Prize Medal awarded
for
Geological Collections.

Prof. O. C. Marsh.

Bryce M. Wright,

Mineralogist, Geologist and Conchologist.

Exposition Universelle,
Paris, 1867.

Dear Sir,

I have the honour

to acknowledge the receipt of your
favoured enclosing draft to
amt of 91£ for which I beg to
return many thanks & enclose
receipt. I am sorry that some
of the specimens were not of
much use to you I will how-
ever be cautious in future
to forward solely those spe-
cimens you may desire.

1957

I have already (a month ago)
forwarded you another Box
which most likely you have
received ere this. There are
However no Fishes in it but
principally tertiary Bird
Bones etc. I will not forget
to procure if possible the Ptero-
-dactyle remains & other of
your desiderata & will em-
fine myself solely to those
specimens you desire. With
many thanks I have

CLASS XXIX.
INTERNATIONAL EXHIBITION.
1862.

90, GREAT RUSSELL STREET, BLOOMSBURY,

London, w.c.

July 17th 1878

Prize Medal awarded
for
Geological Collections.

Prof. O. C. Marsh.

Bryce M. Wright,

Mineralogist, Geologist and Conchologist.

Exposition Universelle,
Paris, 1867.

Dear Sir,

I take the liberty

of asking you to examine

closely the whole of the Fossils

from the London clay I have had

the pleasure of forwarding you.

As I have discovered in a specimen

belonging to the same locality it

spot, a ^(Head) Bird with Reptilian

teeth which Prof. Owen had

just described as Doutopteryx

Goliapicus of a description

19520
of which you will no doubt
receipt. I should not be dis-
turbed if you were to find I had
other remains of the Bird in the
specimens I sent you take the
liberty of mentioning it to you.

I have the Honour to
Remain Sir.

Your most Obediently

J. W. M. Wright

Although I was aware the specimen
was something out of the way I
was not certain it was part
of a Bird so sold it to the
British Museum who had

19521

It thoroughly cleaned out
with acids. etc.
